

# Audio Format FAQ

257522\_PixelRule.tiff ↗

While I like feedback about GISO I do get tired of the "How do I convert TIMEX Sinclair sound files with sox?" requests. The ultimate reference document for this kind of question is the Audio Format FAQ. I will not include it here since ins is constantly updated, but here are some pointers.

If you have Net News read alt.binaries.sounds.\* - it is posted there every so often and those groups are a cool source of sounds :-)

If you are on the net the ultimate FAQ source is

`ftp://rtfm.mit.edu/pub/usenet-by-group/comp.answers`

There is always a copy there.
