TaskArrowSm.tiff ↵ Little arrow markers like this are for making a series of points that aren't as important as checkmark type points.

284212_TaskArrowSm.tiff ↵ They can appear inline in text instead of at the beginning of a line all the time.

388468_12ptHevBlk.tiff ↵ These little numbers are tiff files (ugghh)

182242_12ptHevBlk.tiff ↵ 1-3 are provided here...

951533_12ptHevBlk.tiff ↵ If you need more than three you must create them. Why not use bold typed numbers instead?

The dotted and solid lines are for separating things.

1PixelDottedRulePadded.tiff ↵

187488_PixelRule.tiff ↵

CheckMark.tiff ⇢ Help key;⇢When you hold down a Help key, the cursor changes to a question mark HelpCursor.tiff ⇢.

38470_CheckMark.tiff ⇢ NoHelpKey;⇢If your keyboard doesn't have a Help key, you can get the question mark cursor by holding down the Alternate and Control keys at the same time.

898968_CheckMark.tiff ⇢ When you click something with the question mark cursor, the Help panel opens. The help you requested appears in the panel (where you're reading right now).
