Terminate Settings Screen

Napsterterminator can lock Napster three different ways.

Termination Lock Types:

☒ Allow Application

This always allows Napster to run.

☐ Always Close

This always closes Napster before it ever opens.

☐ Ask Password

This will display a password screen which the user must know the password in order to run Napster.

Note: If logging is enabled, it will always log when then user tries to open Napster regardless of the type of termination lock on Napster.

Logging:

☐ Log Napster Usage

This enables logging of when the user tries to open Napster.

Show Log

This will open the log file in notepad.

C:\WINDOWS\applog.txt

This lets the Administrator control the path of the log file. We suggest you keep it in the windows file where users are not likely to find it.

Note: We suggest you enable logging only if you wish to know when and who uses Napster on the local machine.

Napsterterminator was developed by Chris Whitten and Silvio Kuczynski.

Introduction

Napsterterminator(tm) is the ultimate tool to control who is using Napster. Napsterterminator offers the ability to control when and how people use Napster thus making your network faster and more secure from less downloads. The administrator can totally lock down Napster or require a password to open it. Napsterterminator also offers the ability to log users that try and open it. To enter Napsterterminator, you customize what and how many combinations you need to enter. You also have complete control of the visibility Napsterterminator has on your taskbar. You create your own series of personal passwords to make Napsterterminator(tm) impenetrable. You can try Napsterterminator for Windows with no fear, as it doesn't change any system configuration. If you decide not to use it, it has an uninstall feature that removes it completely from your machine!

Napsterterminator for Windows is widely distributed in the form of "freeware". The public copy has full functionality for evaluation purpose. Corporations or government bodies wishing to use this product must register with Tropical Software on a per license basis.

When you order from Tropical Software , you receive a "Registration Code" that works in combination with your name that activates any demo version of our software you are using.

Hardware/Software Requirements:

Computer: IBM or compatible

Processor: 80386 or higher

Operating System: Windows 95 or higher, Windows NT 4.0 or higher

About the freeware version

The freeware version of Napsterterminator is released to the public for evaluation.
It will never expire and has full functionality.

If you feel you would like to help Tropical Software in the future to develop more of these types of products by giving a donation, please contact us for more information at tropsoft@tropsoft.com.

Tropical Software's Products

You can get up to date information on any of our products by visiting our WEB site at: <http://www.tropsoft.com>

Stealth Encryptor

Information is Power! Protect your data. Utilize the latest in encryption technology to protect your sensitive data. Privacy tools include **file/folder encryption, e-mail encryption, file/folder shredder**, File/Folder Backup with auto encryption, Installable Encryption Modules, Free Stealth Decryptor for files and email, Stealth Media Encryption super speed for large image multimedia and exe files.

Registered version has **DES and Blowfish** encryption amongst others (USA and Canada only). Features an extremely flexible and easy to use interface. Since the Stealth Decryptor can be downloaded free from our web site, the receiver of an encrypted email message does not have to buy the program.

You can try Stealth Encryptor with no fear, as it doesn't change any system configuration. If you decide not to use it, it has an uninstall feature that removes it completely from your machine!

PC Security

Exercise total control over your computer with the following security options: Explorer Control, File Lock, System Lock, Shortcut/Program Lock, Restricted System, Window Lock, Intruder Detection with Alarm, Flexible and complete password protection and Drag and Drop support.

A very powerful and easy to use protection utility.

You can try PC Security for Windows with no fear, as it doesn't change any system configuration. If you decide not to use it, it has an uninstall feature that removes it completely from your machine!

Keyboard Monitor

Police the activities that take place on your computer with this handy program. Turn it on and it records all the keys that are pressed until turned off. Use it to ensure that your child's (or spouse's!) chat room and email activities are on the up and up. Recorded information and access to the Keyboard Monitor is safely password protected. Keyboard Monitor can be run as an invisible background process and it can be set so that it turns on automatically when the machine starts up.

Windows 3.1 and Windows 95/98 compatible.

Warning: It may be unlawful to have the Keyboard Monitor invisible without the user's knowledge.

You can try Keyboard Monitor with no fear, as it doesn't change any system configuration. If you decide not to use it, it has an uninstall feature that removes it completely from your machine!

Ergonomic Timer

The Ergonomic Timer provides relief from repetitive stress problems by monitoring the usage of your mouse, the keyboard and the time spent at the workstation. When the programmable number of mouse clicks, keystrokes or minutes occurs, a break screen pops up and counts down your break time.

A password enforcement option is also supported for ensuring that break time is not interrupted.

You can try Ergonomic Timer with no fear, as it doesn't change any system configuration. If you decide not to use it, it has an uninstall feature that removes it completely from your machine!

Private Desktop

Private Desktop is the ultimate tool to insure your privacy at your computer. Its functionality provides instant transfer of any two screens you wish to maintain at the same time. While you view the screen you do not wish anyone else to see, another screen can be in the holding to make a quick switch within a split second.

Private Desktop has many features to insure that its detection won't be found. While it is fast and easy to get from your private desktop to your normal desktop, Private Desktop is extremely secure. To enter Private Desktop, you customize what and how many combinations you need to enter. You also have complete control of the visibility Private Desktop has on your taskbar. Private Desktop also offers a hot key for quick escape using your keyboard. It doesn't stop here. You create your own series of personal passwords to make Private Desktop impenetrable.

Private Pix

Private Pix is a new technology that lets the user view picture files while keeping them encrypted.

Private Pix provides support for some of the most common picture formats (JPEG, BMP, and GIF amongst others) and helps the user organize and keep private their most personal of pictures.

Private Pix is the answer to keep all your downloaded pictures private and secure. Privacy is essential in today's world and you, as the user should take special care as to who has access to your data.

Secure Browser

Secure Browser offers the administrator the ability to control where the user navigates on the internet through the use of key words and specified URLs. Secure Browser has many security features like locking down or controlling other browsers and the ability to make itself the only allowed application.

Secure Browser is a perfect solution for companies that want to display their website at a store or show.

Disclaimer

Napsterterminator is supplied as is without warranty of any kind.

Tropical Software hereby disclaims all warranties and guarantees regarding the use, or the results of use, of Napsterterminator in terms of correctness, accuracy, reliability or otherwise.

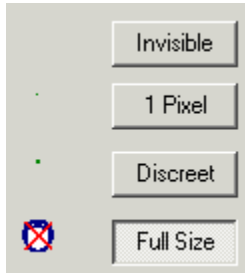

Tropical Software will not be responsible for any incidental, consequential, direct or indirect damages, including but not limited to damages for loss of profits, business interruption and loss of information resulting from the correct or otherwise use of Napsterterminator even if Tropical Software has been advised of the possibility of such damages.

By installing Napsterterminator, you acknowledge that you have read this limited warranty, understand it, and agree to be bound by it's terms and conditions.

You also agree that the limited warranty is the complete and exclusive statement of agreement between the parties and supersede all proposals or prior agreements, oral or written, and any other communications between the parties relating to the subject matter of the Limited warranty.

Settings Screen

The settings screen allows you to control how much visibility you want your Napsterterminator taskbar icon to have. It ranges from being invisible, 1 pixel in diameter, to a discreet size pixel, to a full size button that is easily seen.

Select here the icon choice for the system tray icon, we recommend either invisible or 1 pixel:

Invisible Icon - Icon is there, but invisible. Can still click on it to work

1 Pixel Icon - Icon is 1 Pixel in size, barely visible by the eye

Discreet - Icon is small, but discreet.

Full Size - Icon is full size, readily seen by the eye.

☐ Show Taskbar Icon Tooltip

The tool tip tells that the program is Napsterterminator, you can turn it off for a more stealthy operation.

☒ Start with Windows

When this box is checked, Napsterterminator will automatically start when your computer boots up.

☒ Ask for password to exit

This will make Napsterterminator ask for a password before exiting. We recommend this for extra security.

Uninstall Napsterterminator

This will uninstall Napsterterminator. It is put here for security reasons.

Password Administrator Screen

On the Password Administrator Screen, you can change your password and choose the combination you wish to set for entry into Napsterterminator.

To change the password:

Type in your current password, type in your new password and retype it to verify and then click “change”. Your password has now been changed:

Current Password:

Type in your current password (the initial password is *Tropical*).

New Password:

Type in what you want your new password to be.

Verify new Pwd:

Type the new password again to prevent misspells.

Press this button to change the password.

<input checked="" type="checkbox"/> Step 1 -->	<input type="checkbox"/> Ctrl + <input checked="" type="checkbox"/> Shift
<input checked="" type="checkbox"/> Step 2 -->	<input checked="" type="checkbox"/> Ctrl + <input type="checkbox"/> Shift
<input type="checkbox"/> Step 3 -->	<input type="checkbox"/> Ctrl + <input type="checkbox"/> Shift

You choose the combination you wish to set for entry into Napsterterminator.

The combination key provides added security for your Napsterterminator. This Combination Key is used to enter your Napsterterminator. You create this combination by selecting the number of steps and the step combination.

You need to key in this combination step by step together with clicking the mouse on the Taskbar icon to enter the Napsterterminator.

The combination is created by you. Find one that works best for you.

This can be as simple or as detailed as you like. Just remember what you have chosen!

Password Enter Screen

This is where you will gain entrance into Napsterterminator.

Type here the password. The initial password is Tropical. You can later change it at the [Password Administrator Screen](#)

After typing the password press this button to gain access to the program.

Note This will ask for the password each time the settings screen is closed. This is done for extra security.

The default password is "Tropical".

Registration Screen

Napsterterminator is freeware for individuals. If you are a corporation or government body you must register you copy of Napsterterminator (see below).

To order Napsterterminator, get on-line. Click on the secure order form button. You will be connected to our web page where you can provide your credit card information.

Your credit card information is FULLY PROTECTED.

After you register with us, you will be given a registration key. This will make your downloaded version of Napsterterminator fully operational.

Private Desktop, order information

Press this button to display the Order Information

Secure Order Form (Internet)

Start an Internet connection and then press this button to go right to our secure order form for uncompromised credit card ordering.

Demo valid until: January 20 1999

The demo expiration date is displayed here.

Name:

Enter here the customer name exactly like it shows in the receipt, the name and the key are interdependent.

Key:

Enter the registration key here. You get this code by purchasing the program.

Proceed Unregistered

Press this button to continue evaluating Napsterterminator.

Register

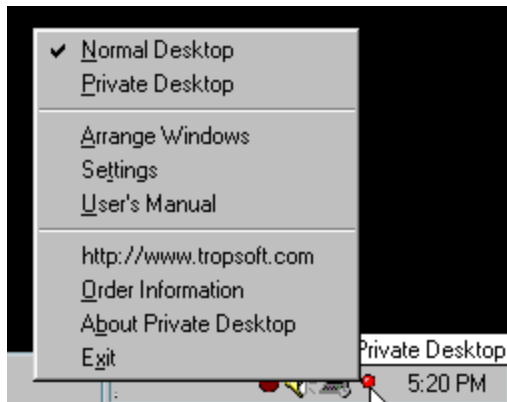

Press this button to register Napsterterminator, the name and key fields must have a valid entry.

Exit

Press this button to exit Napsterterminator.

For registered users: After you make the purchase, you will be given a registration code. This will make the program fully legal if you are a corporation or government body. Type in your name and your registration code where it says "key". Click "Register".

Pop Up Menu

This menu that appears by right clicking the mouse on the Napsterterminator taskbar icon provides links to most of Napsterterminator's functions.
