

4. To Do Tutorial

Setting up the To Do Project

Create the To Do project almost in the same way you created the Travel Advisor application. There are a few differences; each, of course, has a different name and icon. But the most important difference is that To Do has its own document type

1 Create the application project.

- Start Project Builder.
- Choose New from the Project menu.
- Name the application `ToDo`.

2 Add the application icon.

The `ToDo` icon (`ToDo.tiff`) is located in the **ToDo** project in the **AppKit** subdirectory of **/NextDeveloper/Examples**.

3 Specify the To Do document type.

- Click Add.
 - Double-click the new cell under the Extension column.
 - Type the extension of To Do documents: `.td`.
 - Drag into the image well the file **calendar.tiff** from the **ToDo** project in **/NextDeveloper/Examples/AppKit**.
- TD_SettingUp2.eps ↩
