

Thank you for your interest in *The Leaning Company* Foreign Language Division Products

What is Learn To Speak^a?

Learn To Speak is a comprehensive learning program for students, business people, and tourists. *Learn To Speak* contains 30 chapters with lessons about everyday situations that a traveler would likely encounter in a foreign country. Each lesson contains several parts including: Introduction, Vocabulary, Vocabulary Drill, The Story, The Action, Listening Skills, Exercises, Word Jumble, Communications Skills, and Games.

This release of *Learn To Speak* includes recordings and video of native speakers, so you can see and hear them pronouncing words and sentences, speech recognition* which shows you how your pronunciation compares to that of a native speaker, and a bonus Pronunciation Guide program that helps you to further perfect your pronunciation.

What is Practice Makes Perfect^a?

Practice Makes Perfect is an excellent study aid for the student of any level. Teaching over 2,300 foreign-language vocabulary words, *Practice Makes Perfect* touches on everything from commonly spoken words used as the building blocks of learning a foreign language, to some of the less common words which will make your foreign-language speech more refined and elegant. Everywhere possible visual cues, identifiers, and memory aids are used so that every single word has a visual representation.

Practice Makes Perfect also teaches the target language alphabet and difficult letter combinations, and builds a foundation for continued language studies. Throughout *Practice Makes Perfect*, you will see and hear native speakers pronouncing letters and words in the target language. You can practice pronouncing these letters and words with the built-in recording feature.

What is Think & Talk^a?

Think & Talk is an aid to help you develop practical foreign-language conversational skills you can use every day. Based on the proven immersion method of learning from Berlitz, this program will build your all-around language fluency, with an emphasis on introductory speaking and understanding skills. You'll learn from the 50 scenes, lively graphics and sound effects, 10,000-word dictionary, extensive audio by native speakers, advanced speech recognition* and record/playback technologies, and a lot more. There is no faster or easier way to start speaking a foreign language.

* **Speech recognition** is included in the Windows version of *Learn To Speak*, *Practice Makes Perfect*, and *Think & Talk*, which incorporates a metered pronunciation gauge to show you how your pronunciation compares to that of a native speaker. This exciting method of learning a foreign language can keep anyone practicing for hours at a time!
