

MacMod Pro

version 4.21

This patch updates MacMod Pro 4.15 to version 4.21. It updates "in-place" meaning it changes the actual application. You may wish to make a copy of MacMod Pro 4.15 before running this patch. You will have to manually update the application name to "MacMod Pro 4.21" if you want the name to be accurate. This will not affect your preferences or registration data.

About this patch...

This patch cannot work properly while virus detection software is running. Please make sure that you have disabled any virus detectors before applying the patch.

This patch application was made with ResCompare, a free resource comparison and patch generation utility. ResCompare can be FTP'ed from most Macintosh archive sites. Send e-mail inquiries regarding ResCompare to Michael_Hecht@mac.sas.com.
