

## Polish for All

'Polish for All' is an interactive multimedia course for learning Polish at the elementary level. One or two new lessons are released each month. The course consists of regular lessons and some series. To use this material you need to have the program 'Language Toolkit Reader' (version 1.1 or higher).

There are four kinds of regular lessons:

- Grammar-oriented lessons introduce typical grammar structures;
- Vocabulary-oriented lessons introduce commonly-used phrases;
- Topic-oriented lessons usually focus on a picture, a movie or a story;
- Pronunciation lessons.

There are also two series:

- Countryside - an introduction to the most interesting regions of Poland;
- News - brief news from Poland: an introduction to 'media language'.
  - Cookbook

Other components are the modules 'Polish Nouns' which is available now; and the forthcoming 'Polish Words', and 'Polish Verbs'.

Certain parts of the 'Polish for All' course are available from the internet:
