What is Realmz Character Editor?

Realmz Character Editor will allow you to create or edit characters for use with the Realmz™ gaming environment.

Why Use Realmz Character Editor?

Many devoted gamers have grown quite attached to characters they have in other gaming systems. They would love to take these characters into the world of Realmz. The Realmz Character Editor will allow you to create or edit existing characters to reflect characters that you have in other gaming systems. Of course, some people just love to make Supermen and kicks some serious butt.

A demo version of the Realmz Character Editor is available. You can probably find it where you found your copy of Realmz.

To order your full copy of Realmz Character Editor, just fill out the order form in chapter 3 of the manual or select "Print Order Form" under the apple menu. The cost is \$10 and for that we will ship you the latest version of the Realmz Character Editor on disk right to your doorstep.
