

Yank main window

every time you start Yank this window will appear. Read it, and then Click OK. Register your copy of Yank and this window won't appear every time you start Yank.

lick on the button of choice. Closing the window also quits Yank.

Clicking on the [blue underlined text](#) will take you to the specified URL or related action. This works only if you have "Internet Config" installed. Internet Config is a free utility helper tool for use with other Internet applications. For more information on "Internet Config" send email to

[<internet-config@share.com>](mailto:internet-config@share.com). Download Internet Config 1.3 from [<http://hyperarchive.lcs.mit.edu/HyperArchive/Archive/comm/inet/internet-config-13.hqx>](http://hyperarchive.lcs.mit.edu/HyperArchive/Archive/comm/inet/internet-config-13.hqx). If you have Internet Config installed and still nothing happens when you click on the blue underlined text, you probably have to set Internet Config for your Internet application choices.
