Help menu commands

The Help menu offers the following commands, which provide you assistance with this application:

- About Displays the version number of this application.
- Help Offers you an index to topics on which you can get help.

How to Play

The object of the game is to clear as much of the window as possible by clicking on adjacent images.

To clear adjacent images, position the mouse on the image and press the left mouse button.

Hints and Tips

More points are awarded for large blocks, so plan ahead.

250 extra points are available if the entire window is cleared.
