**          LIBRARIES FOR USE WITH THE          **
**
**          PC-FORMS DOCUMENT ASSEMBLY SYSTEM  **
**
```

The text libraries in the PCFMS2.ZIP and PCFMS3.ZIP files are for use with the PC-FORMS Document Assembly System in the PCFMS1.ZIP file. The file PCFMS2.ZIP contains libraries of legal forms and the file PCFMS3.ZIP contains form letters developed to work with that system.

These text libraries may be used as templates for the development of the user's own text libraries of forms for the system. See the SAMPLE library for further explanation.

Users are granted a 30 day license to use the system with any of all of these libraries before being required to register them for continued use. The documentation for the system is in the file PCFMS1.ZIP which also contains libraries named SAMPLE, ORDER, LEARN, AGENCY, CORPN and PARTNR. These may be used to learn how to develop your own libraries, to order the system and its libraries or to simply learn better how to use it.
