Introduction

Toni has been caught behind enemy lines in Moosylvania, a country notorious for Mad Cow disease. Help Toni get back home by avoiding enemy rocket launchers, treacherous oil slicks and swamps.

How To Play

How To Play

All levels are preceded by a splash screen. A keyboard press or mouse click clears the splash screen and initiates the next level.

The objective of each level is to move Toni to the goal square without getting shot, maimed or injured in any way. The following is a description of the various game elements:

Toni - Our hero.

Enemy Cow - These bad guys never miss a shot because they concentrate very hard. They concentrate so hard, however, that they notice (and will shoot at) only objects that are in their direct line of sight.

Goal - Toni's objective is to reach this flag.

Hint Flag - Toni can obtain a hint by visiting a square containing a hint flag.

Cache - Toni does not have unlimited ammunition. Toni gets extra ammunition by visiting squares containing a cache.

Radio - Toni can use the radios to send a bogus signal to the Enemy Cows, instructing them to make a quarter turn to their left or right (depending on the type of radio). The Enemy Cows are not very bright and they will follow this order, believing it to have been sent down from Enemy Cow High Command.

Mine Fields - Entering a mine field is a good way to remove a tank from it's treads. Toni can destroy mine fields by shooting them. Enemy Cows know better than to shoot their own mine fields and so they will shoot over them.

Barb Wire - Toni will become hopelessly tangled when trying to cross this obstacle. Toni can destroy barb wire fences by shooting them. Enemy Cows know better than to shoot their own fences and so they will shoot over them.

Swamp - Tanks are far too heavy to safely cross a swamp. Both Toni and Enemy Cows can shoot over swamps.

Oil Slick - Oil slicks cause Toni to enter a skid. Toni's skid will continue until it is stopped by something heavy such as sand bags, an Enemy Cow or the edge of the board.

Sand Bag - Sand bags are immobile and indestructible. Neither Toni nor Enemy Cows can shoot over them or destroy them.

Keyboard Controls
How To Order

<u>Keyboard Controls</u>

Arrow Keys - The arrow keys rotate and move Toni. If the arrow key pressed corresponds to the direction Toni is facing, Toni will move one square in that direction. Otherwise, Toni will rotate to face that direction.

Space Bar - Toni will fire one shot when the space bar is pressed. Toni will only shoot, however, if he has ammunition.

Note: A keypress of any kind or a mouse click will clear a splash screen and initiate the next level.

<u>Menus</u>
<u>How To Order</u>

<u>Menus</u>

The following menus are available when playing Toni Tank Top:

File -
   Register - This will provide you with information you can use to register Toni Tank Top.
