Fore more information about our company and products check out our web page at http:\\www.elpin.com\.

Installation and Introduction

Included in this shareware package is "Farnsworth Ferret's Fun Pack For Kids" setup program. Open the program Manager and Click on "Run" in the "File" menu of the "Program Manager", and type the path where you unzipped the setup program. i.e. (C:\TEMP\SETUP.EXE) and press enter. Follow the on screen instructions from there.

During installation, a "Farnsworth's Fun Pack" group will be created. To start the games, double click on the "Farnsworth's Fun Pack" icon.

Have fun!

3) Greater than 4 MB physical RAM

Bug Reporting via Fax

We take several precautions in releasing software so that a problem will not occur on your system. However, once in a while a "quirk" makes it to a customer that should have been caught back at our offices. Should you find an undocumented feature (okay, it's called a "bug") that you wish to report, feel free to fax us a description of the problem and system configuration. Please be as detailed as possible giving the steps necessary to duplicate the bug - this will allow us to duplicate and then fix the problem. Our fax number is (408) 441-7980.
