# Chapter 1

## Other\_F1GP\_Stuff

### 1.1 Other F1GP Programs and Activities

Other F1GP related programs and activities

All the programs described in this guide can be found on the Amiga Formula One Web Site (<http://www.nanunanu.org/~oliver/AmigaF1.html>), and some of them are also available on Aminet (in the locations shown).

Most of these programs are also available on the "F1GP Accessories" disk. I used to send regularly updates of this disk to 17 Bit Software (PD library in the UK), but as 17 Bit (and many other PD libraries) aren't as interested in selling floppy disks nowadays I don't send them updates very often :(

F1GP Backdrop Datatype  
Competitions

Internet Amiga F1GP Championship

Amiga F1GP Hall of Fame  
Resources

Amiga F1GP Mailing List

Amiga F1GP PerfBase

## 1.2 SplitTime 1.7

SplitTime 1.7 (5.8.97) by René Smit (rsdi@xs4all.nl)

Aminet: game/misc/SplitTime.lha  
WWW: <http://www.xs4all.nl/~rsdi/>  
<http://www.nanunanu.org/~oliver/utils/SplitTime.html>

SplitTime is a utility that displays split times at every quarter of a track while you drive F1GP (so you need that game to use it). Not only the splittimes are displayed, but also the best splittimes before they show up (like on TV). There are 3 split times on every track and they are at exactly 25%, 50% and 75% distances, while on TV they now use only 2 split times (intermediates) at specific points on the track.

## 1.3 AGPPerf 0.5i

AGPPerf 0.5i (21.10.95) by Grant Reeve (reevel@cs.waikato.ac.nz)

Aminet: game/misc/AGPPerf.lha  
WWW: <http://www.nanunanu.org/~oliver/utils/AGPPerf.html>

This program is based fairly loosely on the PC version of GPPerf. It records telemetry of your F1 car as you drive around the track in F1GP, and allows you to then save it to disk for viewing with some other displaying utility (ie  
GPDdisplay  
) . It also puts some cute extra  
little lights on the dashboard.

## 1.4 GPDdisplay 0.02

GPDdisplay 0.02 (3.10.95) by Grant Reeve (reevel@cs.waikato.ac.nz)

Aminet: game/misc/GPDdisplay.lha

---

game/misc/GPDisplayTrack.lha  
 WWW: <http://www.nanunanu.org/~oliver/utils/GPDisplay.html>

This program will display perf files saved from  
 AGPPerf  
 , or directly  
 from AGPPerfs memory. It allows comparison and analysis of up to 4  
 perf files at once, plus it has some (very) rudimentary editing  
 facilities.

## 1.5 AGPLapTime 1.2

AGPLapTime 1.2 (17.6.97) by René Smit (rsdi@xs4all.nl)

Aminet: game/misc/AGPLapTime.lha  
 WWW: <http://www.nanunanu.org/~oliver/utils/AGPLapTime.html>  
<http://www.xs4all.nl/~rsdi/>

This program can record various things whilst you are driving. It can  
 be set up to record a whole race. The resulting log file can be  
 viewed by an appropriate displaying utility (eg  
 AGPLap  
 ). During a  
 race for example all fastest laps are recorded along with speed  
 factors, driving aids and the horsepower. Pit stops, damage, crashes,  
 setups and many other things are logged.

## 1.6 AGPLap 1.1

AGPLap 1.1 (21.12.96) by René Smit (rsdi@xs4all.nl)

Aminet: game/misc/AGPLapTime.lha  
 WWW: <http://www.nanunanu.org/~oliver/utils/AGPLapTime.html>  
<http://www.xs4all.nl/~rsdi/>

Processes log files created by  
 AGPLapTime  
 , and produces text describing  
 virtually every aspect of the race in detail. Here is a brief snippet  
 of output from a Brazil race log file:

Car	DriverName	Lap	Pos	LapTime	BestTime	RaceTime	Diff
#30	Heinz-Harald Frentzen	1	20	Pitstop, in	FW RW	0h02m08.548s	
#21	Pedro Paulo Diniz	1	21	2:00.072	=2:00.072	0h02m08.948s	+ 0:43.487
# 8	Mika Hakkinen	1	20	Pitstop, out		0h02m14.033s	pit 22.874
#30	Heinz-Harald Frentzen	1	21	Pitstop, out		0h02m31.318s	pit 22.770
*39	Oliver Roberts	2	1	1:19.133	=1:19.133!	0h02m44.594s	
Fastest lap 1:19.133 by Oliver Roberts, 716 HP, Ace, 18700 AIG, aids 0							
# 5	Damon Hill	2	2	1:21.300	=1:21.300	0h02m48.514s	+ 0:03.920

## 1.7 AGPLapMix 0.3

AGPLapMix 0.3 (14.1.96) by Grant Reeve (reevel@cs.waikato.ac.nz)

Aminet: game/misc/AGPLapTime.lha  
WWW: <http://www.nanunanu.org/~oliver/utils/AGPLapTime.html>  
<http://www.xs4all.nl/~rsdi/>

Merges separate

AGPLaptime  
log files together in one log file. For example,

in the

Internet F1GP Championship  
all the drivers could send in log files

of their races. This program can then take all these log files, and  
recreate the race as if everybody was racing together.

## 1.8 AGPLapD 0.2β1

AGPLapD 0.2β1 (13.11.96) by Grant Reeve (reevel@cs.waikato.ac.nz)

Aminet: game/misc/AGPLapTime.lha  
WWW: <http://www.nanunanu.org/~oliver/utils/AGPLapTime.html>  
<http://www.xs4all.nl/~rsdi/>

A graphical logfile displayer, similar to

GPDisplay  
, for use in

conjunction with

AGPLapTime  
.

## 1.9 F1GP-SaveEd

F1GP-SaveEd 1.0 (14.6.97) by Mario Sarno

Aminet: game/misc/F1GP-SaveEd.lha  
WWW: <http://www.nanunanu.org/~oliver/utils/F1GP-SaveEd.html>

Allows you to change various settings in your F1GP end of race save game.  
The following settings can be changed:

- The result of every race in the season so far
- The name of every driver, and also which driver is a computer/human driver
- The names of every Team, and also their Engine names. You can also change which driver drives for them.

## 1.10 F1GP-HFED

---

F1GP-HFED (1.2.96) by Stephen Leary (9600149L@student.gla.ac.uk)

WWW: <http://www.nanunanu.org/~oliver/utils/F1GP-HFED.html>

Allows you to alter the helmet images on the driver selection screen in the game. Simply design your helmets in any decent paint package and use this program to convert them into the game. Maybe useful to some people I guess, but depends on how often you visit the driver select screen (ie me -> very rarely :-)

## 1.11 F1GP-RES 2.0

F1GP-RES 2.0 (29.3.96) by Edo Nijmeijer (130588@student.fbk.eur.nl ↔ )

Aminet: <game/misc/F1GP-RES.lha>

WWW: <http://www.nanunanu.org/~oliver/utils/F1GP-RES.html>

F1GP-Record Entry System - mainly a utility for use by  
Hall of Fame

participants. Used to store lap times, setups and options used. ↔  
Can

scan HoF AmigaGuide files.

## 1.12 HoF-Analyzer 1.1

HoF-Analyzer 1.1 (26.8.97) by Christophe Macours (s952025@student. ↔  
ulg.ac.be)

Aminet: <game/misc/HoF-Analyzer.lha>

WWW: <http://www.nanunanu.org/~oliver/utils/HoF-Analyzer.html>

A utility mainly for use by  
Hall of Fame

participants. Allows you to  
enter records and easily work out how many points you have improved by, etc.  
Similar to

HoFPoints

.

## 1.13 HoFPoints 3.7

HoFPoints 3.7 (9.11.96) by Michal Janak (janak@jackal.cis.vutbr.cz ↔ )

Aminet: <game/misc/HoFPoints.lha>

WWW: <http://www.nanunanu.org/~oliver/utils/HoFPoints.html>

Another utility for use by

---

Hall of Fame  
participants. Allows you to  
enter records and easily work out how many points you have improved by,  
etc.

## 1.14 F1GP Backdrop Datatype 1.1

flgp\_bkg.datatype 1.1 (13.1.97) by Oliver Roberts (Oliver@POBoxes.com)

Aminet: util/dtype/flgp\_bkg\_dt.lha  
WWW: [http://www.nanunanu.org/~oliver/utils/bkg\\_dt.html](http://www.nanunanu.org/~oliver/utils/bkg_dt.html)

The F1GP Backdrop datatype is a picture datatype for displaying any of the  
backdrop files (filename suffix .bkg) supplied with F1GP. All of these  
images are sized 320x200 and have a 32 colour palette.

Requires Workbench 3.0 or higher.

## 1.15 Amiga F1GP Hall of Fame

Amiga F1GP Hall of Fame (administrated by Alan Strang - aws@thenet.co.uk)

Aminet: docs/hyper/F1GP-HoF.lha  
WWW: <http://www.thenet.co.uk/~aws/hof/>  
<http://www.nanunanu.org/~oliver/hof/>

The latest Internet list of F1GP qualifying lap records from various  
participants. Supplied as an AmigaGuide document. Released monthly.

## 1.16 Internet Amiga F1GP Championship

Internet Amiga F1GP Championship  
(administrated by Markus Kruggel - Markus.Kruggel@uni-duisburg.de)

WWW: <http://www.nanunanu.org/~oliver/ic/>  
<http://homepages.enterprise.net/oliverr/ic/>

Compete against other Amiga F1GP players over 100% races. Players  
send in their races times before the posted deadline, and championship  
points are calculated according to the fastest times. To find out more  
take a look at the web sites or e-mail Markus.

## 1.17 Amiga F1GP PerfBase

Amiga F1GP PerfBase (administrated by Oliver Roberts - ←  
Oliver@POBoxes.com)

---

WWW: <http://www.nanunanu.org/~oliver/PerfBase.html>

Collection of various

AGPPerf

perf files, from contenders in the

Hall of Fame

, for use with

GPDisplay

. Perfs can be downloaded from

the web site.

## 1.18 Amiga F1GP Mailing List

Amiga F1GP Mailing List (administrated by Oliver Roberts - [Oliver@POBoxes.com](mailto:Oliver@POBoxes.com))

WWW: <http://www.nanunanu.org/~oliver/amigaflgpml.html>

<http://homepages.enterprise.net/oliverr/amigaflgpml.html>

The ultimate e-mail based mailing list for F1GP fans. The mailing list is used for public discussions about all aspects of F1GP and also for things related to the Internet Amiga F1GP Championship and Hall of Fame.

To subscribe, send mail to [majordomo@thule.no](mailto:majordomo@thule.no) with "subscribe amigaflgp" in the message body. To post messages to the list, send mail to [amigaflgp@thule.no](mailto:amigaflgp@thule.no)
