- Thursday
- Friday
- Saturday
- EveryDay

At the bottom, there is a text area containing the command: "x babe03 klein".

Setup of **Yeah!**

I think most of the stuff is logic.

Global IniFile is a File where all users of a Network may have shortnames.

The image shows a screenshot of the "Yeah! Setup" dialog box. The title bar is purple with the text "Yeah! Setup" in yellow. The dialog is divided into several sections:

- Window**: Contains two checked checkboxes: "Save Window Position" and "Always on Top". To the right are "OK" and "Cancel" buttons.
- IniFile's**: Contains a checked checkbox "Search in Inifiles" and a text field labeled "Global IniFile:" containing the text "u:\@.ini".
- Hotlist + History**: Contains several options:
 - Checked checkbox "Save Hotlist" with a spin box set to "50".
 - Unchecked checkbox "Ask to overwrite" next to the "Save Hotlist" spin box.
 - Checked checkbox "Save History" with a spin box set to "50".
 - Unchecked checkbox "Ask to overwrite" next to the "Save History" spin box.
 - Unchecked checkbox "Add Entry in History with SHORTNAME".
 - Unchecked checkbox "Add also wrong Commands to History".
- At the bottom, there are two more options:
 - Checked checkbox "Ask to add a new entry".
 - Unchecked checkbox "Deutsch".

Add an Entry

| Add Command | |
|--|--|
| Shortname: | ThisIsYourShortCommand |
| Command: | extees=S:\WA\TOOLS\INFO_BMP.EXE F:\mbc\bilder\bmp.V |

Double-Click to close Yeah!

If you click double-click with the right button you get the about Box.

Type in the Shortname of your application.

On the second line you have to put the name of the program or file with all the parameters you like.
You may also use Drag and Drop to put the file with the path on the second line.

Save Global for all Users means, that if you save it, all users with the same global INI file will have this new entry.

1. **ADD** write a command and double-Click with Left mouse-button.
2. **DEL** Open HOTLIST and select an entry with the cursor-keys.
2.1. Double-click with the Right mouse-button.

Notes

USE OF YEAH!

The YEAH! and all other programs which are included were distributed as shareware for home use, but must be licensed for use within a business, corporation, or organization. This includes educational institutions and government agencies. If you are a shareware distributor you may distribute all software listed below in the registration form as long as you contact me (Th. Stoll) for permission first. You must distribute all the files intact and in unmodified form (duplicate files may be removed) and may not charge more than a reasonable disk copying fee. If you are a System Operator and run a publicly-accessible BBS for which there is no usage fee then you may use the software free of charge--that's our way of saying thanks.

REGISTRATION FOR YEAH!

Registration is required for the use of the YEAH! and all files described in this documentation. This form should be used to register it.
