

# WINIMAN Registration

If you've found that this program fits in with the way you work, please register.

The Registration Code and Serial Number returned when you register will be valid for all releases of WINIMAN of the same major version number (i.e. if you register V1.10, then it will be valid for all V1.nn releases but possibly not V2.nn or later).

We don't supply a disk with your registration (that's one reason why it's cheap!).

Just print out the form below, fill in the details and post the form to:-

Absolute Zero Software Services  
PO Box 260  
Edgware  
Middlesex  
HA8 8EY  
United Kingdom

Please note we prefer payment in pounds sterling (non-UK orders please see below).

## **Disclaimer**

Don't forget that there are no warranties associated with this software beyond saying that it will do what it says in the documentation (apart from your legal rights, of course). If you manage to mess up your installation and think it has something to do with WINIMAN or SETVAR, we're sorry but they only cost £5. However, registered users may e-mail CIS 100272,3473 and we will do our best to satisfy your requests. All prices are subject to sudden, unexpected change, and all errors are regrettable, human and apologised for. Once you have a license, you can use our software 'like a book' as they say - do what you wish with it as long as only one person can ever use the licensed copy at any one time. We only sell the permission to use, not the software. (We can translate this section into legalese if you wish!)

## **US and other non-UK Users!**

Please do register! As a special incentive, there are no extra shipping costs for non-UK orders! If you really cannot avoid paying in a currency other than pounds sterling, please add the equivalent of £3 sterling to the price you send to cover part of our currency exchange costs.

We apologise if this seems expensive to US customers, but the price is a fair one for Europe and is distorted by exchange rates and market prices to seem expensive in the US. At least we're not charging you for shipping!

Just for the record, WINIMAN and SETVAR are both © Copyright 1993, D Kelvin; this chatty registration form is entirely public domain and has been liberally taken from the BackMenu Registration form (thanks to SP Services).

It's designed for A4 paper but should print OK on 8½" x 11" letter.

## REGISTRATION APPLICATION FORM

(please deface as required)

I understand that I will receive one of your 'fairly' nice registration certificates, appropriate registration number, WINIMAN serial number and the undying gratitude of D. Kelvin in return for this sum (and that is all). I got the software from \_\_\_\_\_ and have version 1.10 (don't worry about prior versions - they were never released!).
