KazStamp Overview

KazStamp is a utility program that makes it easy to print envelopes or single labels of any size with the following steps:

1) Type the address into the editor using the New command.
      - or -
    Load the address from a text file using the Open command
      - or -
    Copy the address from the clipboard using the Copy command.

2) Use the Print Envelope command to print the envelope.

KazStamp Registration

There are two versions of KazStamp - demonstration and registered.   (Use the About command from the Help menu to determine which version you have.)   The demonstration version contains the same features found in the registered version.   However, the demonstration version runs for a maximum of one hour at a time.

You may use the demonstration version of KazStamp for up to fifteen days to evaluate the software. After these fifteen days, the program must be registered with Kaczynski Software if you continue to use it.

To register KazStamp, print a registration form using the Print Registration Form command from the File menu.   Fill out the form and send it to Kaczynski Software with your registration fee of only $5.   You will receive the registration number to register your copy.   In addition, you will receive a disk with the most recent version of KazStamp if you do not already have it.
