

Introduction

The Print Label program helps you print simple labels on your printer (dot matrix recommended). The program completely bypasses windows and prints directly to the hardware. You can specify how many labels you want, an incremental counter (for a serial/asset number), the number of lines between labels, number of lines per label, etc. The label always prints in the printers current font and size.

You are prompted for the contents of the label and other information about the output format. You may also indicate how many labels you want to print and the starting number for a sequential counter.

Anywhere you want to print the current counter number simply include the two characters ^C (caret and capital C). This string will be replaced by the current counter number (which is incremented between each label).

Saving and Restoring a Label

Saving a Label Format

Print Label allows you to save the current label format and all the additional parameters (label size, sequential counter, etc.) for later use.

Select Save or Save As from the File menu. You are prompted for the file name you want to save the current label format to. The file should have the extension ".LAB" to make it easier to find later.

Restoring a Label Format

Print Label allows you to open a previously saved label format and all the additional parameters (label size, sequential counter, etc.).

Select Open from the File menu. You are prompted for the file name you want to open. By default all files with the ".LAB" extension are displayed for you to select.

Opening an existing label overwrites the current label format. Please remember to save the current label if necessary.

Allow the label to be wider than the input field. Use the scroll bars to see more of the label.

Changed the display font to a non-proportional font for easier alignment of label contents.

Registration

You have a 15 day evaluation period in which to try out the package. If you use it longer than 15 days you must license/register it. The reminder screens will not appear once you have registered the software.

How to Register

You can register by mail or electronically via CompuServe's Software Registration Service. It is strongly recommended that users outside the US register electronically as it can be much less expensive.

CompuServe ID: 73337,2472

Mail:

Pride Software Works!
Department 45
6 Sedley Ct.
Greensboro, NC 27455
USA

License Agreement

Print Label is not and never has been public domain software, nor is it free software. You are, however, granted 15 day evaluation period to try out the system.

The software product and user's manual are copyrighted and all rights are reserved by Pride Software Works! and Charles L. Cranford IV.

Evaluation users are granted a limited license to use Print Label for no more than 15 days for the purpose of determining whether Print Label is suitable for their needs. The use of Print Label for more than 15 days requires licensing and the payment of a license fee. The use of the product for more than 15 days by any person, business, corporation, government agency, or any other entity without licensing it from Pride Software Works! is strictly prohibited.

A license permits a user to use Print Label on any single computer, or, in a LAN environment, on one workstation. The software may not be installed on more than one workstation or single user computer without additional licenses.

No one may modify or patch the Print Label files in any way, including but not limited to decompiling, disassembling, or otherwise reverse engineering the program.

A limited license is granted to copy and distribute Print Label for the trial use of others, subject to the above limitations, and to those below:

(1) Print Label must be copied in unmodified form, complete with the file containing this license information and all documentation.

(2) Print Label may not be distributed in licensed form to any person. It MUST be distributed as an unlicensed copy.

(3) No fee, charge, or other compensation may be requested or accepted for distributing Print Label, except as follows:

(a) operators of electronic bulletin board systems may make Print Label available for downloading. A time-dependent charge for the use of the bulletin board is permitted so long as there is no specific charge for the download of any Print Label files.

(b) vendors of Shareware may distribute Print Label, subject to the above conditions, and may charge a disk duplication and handling fee, not to exceed ten dollars.

Warranty

Pride Software Works! guarantees your satisfaction with this product for a period of thirty days from the date of original license. If you are dissatisfied with Print Label within that time period, return the package in salable condition to Pride Software Works! for a full refund.

Pride Software Works! warrants that all disks provided are free from defects in material and workmanship, assuming normal use, for a period of thirty days from the date of purchase.

Pride Software Works! warrants that Print Label will perform in substantial compliance with the documentation supplied with the software product. If a significant defect in the product is found, the Purchaser may return the product for a refund. In no event will such a refund exceed the license price of the product.

The product and all updates are provided on an "as is" basis without warranty of any kind, express or implied, except as stated above including, but not limited to the implied warranties of merchantability or fitness for a particular purpose. The entire risk as to the selection, quality, results, and performance of the product is with the Licensee. Should the product prove defective, then the Licensee (and not Pride Software Works! or its dealers) assumes all liability and expense incurred as a result thereof. Some jurisdictions do not allow the exclusion of certain implied warranties so in such jurisdictions, the above exclusion of implied warranties may not apply to you. The limited warranty gives you specific legal rights. You may also have other rights which vary from jurisdiction to jurisdiction.

Pride Software Works! shall have no liability or responsibility to you or to any other person or entity with respect to any liability, loss or damage caused or alleged to be caused directly or indirectly by the product or your use, misuse or inability to use the product, including but not limited to, any interruption of service, loss of business, anticipatory or actual profits or consequential damages resulting from the use, misuse or inability to use the product.

Pride Software Works! does not warrant that the functions contained in the product or updates will meet your requirements.

Use of this product for any period of time constitutes your acceptance of this agreement and subjects you to its contents.

Update History

Version 1.0 Released 8/7/93

Version 1.5 Released 8/29/93

- Ability to save and restore label formats (along with the label size, sequential counter, etc.).
- Reorganized the window to make it easier to use.
- Added support for a sequential counter (for inventory/asset labels etc.)

Version 1.6 Released 10/24/93

Version 1.7 Released 12/18/93

- Improved error messages - they now contain details about what caused the error.
- The new menu option Search Help... has been added to the Help pulldown menu. This item displays the keyword search dialog.

Version 1.8 Released 2/27/94

- Switched from CMDIALOG.VBX to CSDIALOG.VBX. It was installed with the update. You may need to copy it to the Windows System directory.

Registering via CompuServe

If you are a member of CompuServe, you can register this Pride Software Works! application electronically. This is much faster than the mail and is the preferred method for registering users outside the US. When you use the CompuServe Software Registration system your CompuServe account will be charged for the registration fee (see opening message box) plus a 15% processing charge (to cover the cost of CompuServe charging your account and mailing payment to us). You must be a member of CompuServe to use this registration option.

- Log into CompuServe using your assigned account number and password.
- Go to the SWREG menu (type GO SWREG at the ! prompt) or use your CIM to go there.
- Select menu option "Register Software".
- Select menu Option "Search By Registration ID"
- Enter registration ID **1819** when prompted.
- A description of the application displays. Notice that the registration fee is 15% higher than that displayed in the product. This slight increase in registration fee covers the cost of CompuServe charging your account and mailing payment to us.
- You are prompted "Would you Like to Register?" - Respond Y.
- Your CompuServe account is charged the registration fee indicated (in US dollars).

You will be sent the required activation information via CompuServe eMail shortly.

IMPORTANT: Do not delete the .REG file or re-install the software after you send us your serial number. Doing so assigns a new serial number to the product and the activation key sent to you will not work.

Activating the Application

Registering by Mail

- Install the software per the instructions.
- Start the software. You are prompted for some information (company name, your name, day phone number, and CIS ID (optional). This information must be accurate as it will be sent to us as part of your registration.
- When the opening information window appears, press the "Print Registration Form" button. The registration form will print to the default printer in the printer's default font.
- Fill in the remaining blanks on the form. Be sure your CompuServe (CIS) ID is specified (if you are a member of CompuServe). The activation key will be sent to you via CompuServe eMail. If you are not a member of CompuServe your activation key will be mailed to you.
- Mail your payment for the license fee listed on the form to the address below. Remember to make payment payable to Charles Cranford. Payment must be in US funds (a check drawn on a US bank, Money Order or Bank check in US funds, etc.)

IMPORTANT: Do not delete the .REG file or reinstall the software after you print the registration form. Doing so assigns a new serial number to the product and the activation key sent to you will not work.

WARNING: Pride Software Works! has discovered that some companies outside the United States are accepting registrations for our products. Since they can not provide you with a activation key the program will not be fully activated. Only Pride Software Works! can accept and process your registration key.

Pride Software Works! Mailing Address

Activating the Application

Activating the Software

After you receive your activation key:

After you receive your activation key you need to enter it into the application to register the application. This will eliminate the registration reminder windows and remove any other limits that existed in the unregistered version.

- Start the software.
- When the opening information window appears, press the "Register" button. The registration information you entered before displays. You are prompted for your Activation Key which has been supplied to you by Pride Software Works!
- Enter the key supplied to you into the box, double check it, and click on OK. If the key is correct the system will be registered.
- Exit the program now and simply restart the program to continue using it. The registration reminder screens will never appear again.

The registration information is stored in a file with the .REG extension. Do not delete this file (as you must again register the software). Future updates will not affect this file so you may install them without worrying about your registration. We suggest you make a backup of this file so that in the event of computer problems you do not have to re-register the software.

Obtaining Updates

Updates to Pride Software Works! shareware products are always free of charge.

In order to provide you with updates to Pride Software Works! software as quickly as possible (while also controlling our cost and passing the savings on to you), updates are released on the [CompuServe Information Service](#). If you are a member of CompuServe you may download an update at any time. GO IBMFF and search for files contributed by 73337,2472.

If you are not a member of CompuServe, you may be able to locate updates to our products on local BBS services or on CD ROM shareware collections. We also distribute our software through shareware libraries, although all titles may not be available from all libraries.

If none of these channels is available to you, you can order a set of diskettes with the latest versions of all Pride Software Works! shareware titles directly from us. Send \$3 (\$6 for orders outside the US, in US funds) for shipping and handling. We will send you a set of 3" HD Diskettes with our shareware titles. There is no guarantee that this application has been updated since you acquired it.

Before applying an update, check the version information carefully. "Downgrading" to a lower version may cause problems with the application.

Note: Applying an update to your registered system has no effect on your registration status. You will not need to obtain a new activation key.

CompuServe Information Service

CompuServe is an international computer network. Although Pride Software Works! is not directly affiliated with this service, we do use it for distributing updates to our shareware and handling support questions through eMail. If you are interested in obtaining more information about this service you can contact CompuServe directly. Tell them that Charles Cranford at 73337,2472 recommended you.

Free CompuServe Sampler (provided by CompuServe and is subject to change without notice) CompuServe offers a free sample of its services. With a modem and one of COMpuServes modem phone numbers, log into compuserve with user ID 77770,101. Try 2400 baud and settings E71 or N81. You may need to press [Ctrl-C] after connecting. The password is FREE-DEMO. Enjoy!
