

## **Introduction**

Telephone Puzzle displays words as telephone numbers. It's up to you to determine that 2662586466 represents "CONCLUSION".

## **Required Hardware and Software**

Windows 3.1 or later.

## **Installing the Program**

In the DOS shell, or with the Windows File Manager, create a subdirectory for the program. For example:

```
MKDIR C:\TELPZL
```

Then copy all files from the distribution disk into the subdirectory. For example:

```
COPY A:\*.* C:\TELPZL
```

The program is made up of the following files: TELPZL.EXE, TELPZL.HLP, and TELPZL.DAT.

Using the Windows Program Manager, select the File menu and the New submenu. Then press the Personal Program Group button and the OK button. Enter Telephone Puzzle in the Description field and press the OK button.

Select the File menu and the New submenu again. This time, press the Program Item button and the OK button. Enter Telephone Puzzle in the Description field, and enter the location of the program in the Command Line field, for example:

```
C:\TELPZL\TELPZL.EXE
```

Press the OK button.

Telephone Puzzle is now installed.

## **Running Telephone Puzzle**

After starting Telephone Puzzle, select the New Game button with the mouse to start a game. If you need further instructions, select the Help button with the mouse.

## **Distribution and Payment**

Telephone Puzzle may be freely copied without cost, provided it is not changed in any way. If you find the program useful, please send \$7.50 to:
