

Using this software.

You need:

1. An IBM-compatible PC running Windows 3.1.
2. A hard disk with 2 MB available space.
3. 4MB RAM memory.
4. An MPC-compatible sound board.

To install:

1. Go to your hard disk root directory
c:>
2. Make a new directory (we recommend "SNAKE")
c:> md **SNAKE** {enter}
3. Log to the new directory:
c:>cd\SNAKE {enter}
4. Copy all files from the distribution disk (example below assumes you have the distribution disk in Drive A).
c:\SNAKE> copy a:*. * {enter}
5. Run Windows 3.1 and RUN C:\SNAKE\snake.exe from the File Manager,
OR
Set up snake.exe as an application using the Windows Set-Up program.[]
