Using this software.

You need:
1. An IBM-compatible PC running Windows 3.1.
2. A hard disk with 2 MB available space.
3. 4MB RAM memory.
4. An MPC-compatible sound board.

To install:
1. Go to your hard disk route directory
        c:>

2. Make a new directory (we recommend "SNAKE")
        c:> **md SNAKE** {enter}

3. Log to the new directory:
        c:>**cd\SNAKE** {enter)

4. Copy all files from the distribution disk (example below assumes you have the
        distribution disk in Drive A).
        c:\SNAKE> **copy a:*.*** {enter}

5. Run Windows 3.1 and RUN **C:\SNAKE\snake.exe** from the File Manager,
              OR
   Set up snake.exe as an application using the Windows Set-Up program.
