Are You Serious About Multimedia?

If you work with Multimedia sounds, images, or movies, you'll want to add
CyberManager™ to your production team.

CyberManager is a robust, feature-packed *Multimedia File Manager*.

CyberManager views *20 popular multimedia formats* including BMP, GIF, TIF, and TARGA,
and can convert any image to one of seven other formats including JPEG.   In addition,
CyberManager plays AVI Video for Windows, WAV and MID files, and Autodesk FLC and
FLI animation files.

Features include:

- On-The-Fly directory creation from within the Move / Copy
  Command
- On-Screen Volume Control
- File and Directory Rename and Deletion
- Automatic and Manual AutoPLAY
- File Search by extension or by User input
- Create Volume labels and view extensive file information
  - more than any other product on the market!
- Image printing
- Convenient 'File Loading' Indicator
- Copy images to the Clipboard
- On / Off Main Viewer Control for Easier File Management

If you *are* serious about Multimedia,
     Add **CyberManager** to your production team **!**

Requires MPC Level 1 Standard
Although we recommend:
At least 4MB RAM
486-25 Mhz or greater
640x480, 256 color or better Video Display

CyberManager is a trademark of **Cyber Interactive, Inc.**
All other trademarks and tradenames are the property of their respective owners.

SOFTWARE REQUIREMENTS:

You must be running Windows 3.1 in Enhanced mode

Required Software:
1   VBRUN300.DLL
2   Video for Windows Version 1.1 (VFW) runtime (for AVI playback)
3   Optional: Sound Card or PC speaker driver

All of these files can be found on most BBS forums.

To find VBRUN300.DLL:
If VBRUN300.DLL is not included, browse/search your favorite BBS for VBRUN3.ZIP or VBRUN300.ZIP.

To find Video for Windows Runtime:
Browse/search your favorite BBS for VFWRUN.ZIP or VFW11A.ZIP.

Optionally: If you have a sound card you already have the MCI drivers for WAV playback. (These come with your sound card)   If you don't have a sound card you can download a PC Speaker WAV driver for Windows from your favorite BBS.

To find a PC Speaker Driver:
Browse/search your favorite BBS for SPEAK.EXE or SPEAKR.ZIP
