## **Shareware Agreement**

You are hereby licensed to: Use this software for a 30 day evaluation period; make as many copies of this software and documentation as you wish; give exact copies of the original to anyone; and distribute the software and documentation in its unmodified form via electronic means. There is no charge for any of the above.

You are specifically prohibited from charging, or requesting donations, for any such copies, however made; and from distributing the software and/or documentation with other products (commercial or otherwise) without prior written permission.

[Contents](#)

## Limited Use

This product is Shareware and its continued development can only be supported by YOU. This license allows you to use this software for evaluation purposes without charge for a period of 30 days. If you use this software after the 30 day evaluation period a registration fee is required. One registered copy of WinEvent may be used by a single person who uses the software on one or more computers or to a single workstation used by multiple people.

If you continue to use this product after a reasonable trial period then please register it.

### The Benefits

The Nag messages will be removed immediately upon registration. You will be advised of updates and other products available.

### The Cost

US\$15.00

Payable by Check or Money Order.

## [Contents](#)

## **Disclaimer**

This product is provided "as is" without representation of warranty, either expressed or implied.

The entire risk as to the use of this product is assumed by the user. In no event will GS Solutions or their estate be liable for any damages direct, indirect, incidental or consequential resulting from any defect in the product.

If you do not accept these terms you must cease using this product forthwith and destroy the program, the documentation and all copies thereof.

[Contents](#)

## **The Shareware Concept**

Shareware is copyrighted software that is distributed by authors through bulletin boards, on-line services and disk vendors.

Shareware allows you to try the software for a reasonable limited period. If you decide not to continue using it, you throw it away and forget about it. You only pay for it if you continue to use it. Shareware is a distribution method, not a type of software. You benefit because you get to use the software to determine whether it meets your needs, before you pay for it.

The shareware system and the continued availability of quality shareware products depend on your willingness to register and pay for the shareware you use. It's the registration fees you pay which allow authors to support and continue to develop our products. Please show your support for shareware by registering those programs you actually use.

## Main Window

The Main Window gives a list of Names and Numbers. You can add, edit or delete, and dial.

The List is arranged alphabetically by last name and sorted in a roladex fasion.

Special tabs are:

**\*' (Priority List)**

A list consisting of numbers where you have checked 'Priority List' in the 'Add Phone Numbers' window.

**'all'**

A list consisting of all the numbers you have entered.

The other options available here are listed below

### Phone List

The Phone List layout is:

First Name    Last Name    Phone Number

### First Status Line

Current status on phone calls

### Dial Button

Dials the Phone Number you are highlighting in the Phone List

You can also double click on the Phone Number you want to dial

### Cancel Button

This is only enabled when you make a call, and will cancel the call

You can also press Esc to cancel your call

### Add Button

Lets you add new Phone Numbers

### Edit Button

Lets you edit the Name, Phone Number and Priority of the currently highlighted in the Phone List

### More Button

Lets you edit all information of the currently highlighted in the Phone List

### Delete Button

Will delete the current Phone Number you are highlighting in the Phone List

### Exit Button

Quickly exits Quik Dialer

### Pfx Fields

Type in a number to be optionally dialed previous to any Phone Number you select from the list or Quik Dial field

These numbers will be saved for future use

### Quik Dial Button

Use this button to dail a number without having to enter it in the phone list

### Quik Dial Field

Type in the number to be dialed when you press the Quik Dial button

This number will be saved for future use

### Speaker Off

If this option is checked then the speaker on your modem will be turned off on the next call

### Quik Dialing

If this option is checked the dialing speed is increased

Note: some modems don't recognize this command: S11=40

## **Auto Redial**

Quik Dialer will redial until the number is not busy

## **Pulse Dialing**

If you prefer to use pulse dialing then check this option

## **Port**

This is the Comm Port that your modem is currently attached to  
The default is Port 2

## **Modem Status**

Current status of modem responses

## **Menus**

The Menu has all the same functions as the buttons on this Window  
With the addition of Help and About options  
And additional Print options.

Print - Prints the entire list of numbers in alphabetical order.

Printer Setup - lets you choose a printer and orientation.

## **Print Phone List**

Prints the entire list of numbers in alphabetical order.

Printer Setup - lets you choose a printer and orientation.

[Contents](#)

## Adding and Editing Phone Numbers

Just type in the:

**First Name**  
**Last Name**  
**Phone Number**  
**Priority List**

Checking this will build a list of names under the \* Tab

Clicking on the More... button you can type additional information:

**Company**  
**Address**

To add a return: Hold down the Ctrl key and press enter.

**Notes**

The Notes field can hold up to 1000 characters.

To add a return: Hold down the Ctrl key and press enter.

**PreFixes**

No Prefix: Dont use a prefix with this number

PreFix 1-3: Use prefix with this number

[Contents](#)

[Contents](#)

## **Printing Options**

The Printing Options window will give you a limited choice of options for your printed list of numbers.

By default the First, Last and Number fields are printed.

### **Include Group**

Optional fields are: Company, Address and Notes.  
Which can be included by checking the corresponding fields

### **List Style Group**

The "All" option will print everything in alphabetical order.

The "All + Priority" option will print everything in alphabetical order and includes a copy of the Priority List.

The " Priority List" option prints only the Priority List in alphabetical order.

### **Wallet Size Option**

Prints a reduced size list, which can be cut and used in your wallet.

### **Print Button**

Sends list list to the printer

### **Print Preview Button**

Lets you view an outline of what will be printed

### **Update Button**

Updates the print preview

Note: this option is only available after the Print Preview has been pressed
