Gamesdex

1.1 The games on Aminet

The games on Aminet CD 7

We have more than 120 games on this CD, but unfortunately only half of them can be started directly off CD.

Best games

The top games on this CD, ready to run

Compatible games

The remaining games that work on an A4000/040

Other games

The games that cannot be run directly

Make sure you have no unsaved work in memory when starting games, they may crash or alter your system configuration.

And here's the complete list of games. Some don't work on accelerated Amigas, others need to be installed, and some are just data files for other games.

1.4 Non startable games on this CD

These are the games that cannot be run directly on an Amiga 4000. Check the readmes to see why, 'Action: NoA4000' means this crashes, 'NoStart' means that it needs to be installed first, and some files like game patches make no sense to run directly.
