

As a result, DynRisk will take you to the “Edit edge” dialog box for the first edge where the reference is used. To go to the next edge using the same reference, just click “OK” or “Cancel” in the dialog box.

If a reference is used in a long list of edges, you may want to stop the sequence of “Edit edge” dialogs before reaching the end. To do this, hold down the “Option” key when you press the “OK” or “Cancel” buttons.
