

TimeTracker is available for only \$25 per copy (one copy per user please).

Quantity discounts are available. Contact Maui Software for more information.

Normally you'll receive your registration name and code within 24 hours. Slow turnaround times occur during Christmas, holidays, vacation time, and directly after we release a new version.

Here's how to obtain your TimeTracker registration code:

1) Start TimeTracker.

2) Click on "Fill Out Order Form" or select "Order TimeTracker" from the Apple menu.

3) Fill out all the necessary information.

4a) For fastest service: pay by credit card and email your order:

- a) Click on "Save As..." and save the order form to disk.
- b) Start your bulletin board program (AOL, CompuServe, etc.), and open the order form you just saved (select Open from the File menu to do this).
- c) Make any necessary changes, add any comments, and then send it to our Internet address.

4b) For fast service: pay by credit card and FAX your order:

- a) Click on "Print..." and print the order form.
- b) Sign the form, make any necessary changes, add any comments, and FAX it to us (a fax cover sheet is not necessary).

4c) For not as fast service: use the post office:

- a) Click on "Print..." and print the order form.
- b) Sign the form if you are paying by credit card, make any necessary changes, add any comments, enclose payment, and mail it to us.

## NOTES:

- Shipping a disk with the latest version

If also you want a TimeTracker diskette mailed to you (for example, you want to receive the latest version on diskette instead of downloading it from a BBS), please enclose an additional \$5 to cover postage and handling. You could make out two checks (the second one for \$5), and if there is no later version, we will return your \$5 check. Likewise for credit card sales. You

can authorize us to charge an additional \$5 for shipping a disk if there is a later version. If there is no later version, we won't charge the additional \$5. This is at your option, and there will be no additional \$5 charge unless you specify it.

- Non-U.S. funds

We are now accepting non-U.S funds for payment, whatever currency you want to use, drawn at your local bank (or whatever is easiest for you). Please make sure the amount is NOT in U.S. dollars, but instead in your own currency, equivalent to the U.S. dollar amount..

- You cannot send files (attachments) to our Internet address from some non-Internet services (although that may change in the future with some on-line services). That's why you should send your order form to us as an email message, and not as an attached file.
