

Dear Web Surfer,

There are over 150 original textures contained in this folder. Each image is 72 pixels x 72 pixels in size (roughly 1" x 1"). Each is fully tileable and designed to be placed in HTML documents for use as web page backgrounds.

If an image is too bright, try opening it in Photoshop or a similar graphics program and reducing the brightness level.

These textures are 100% royalty free! Use them however you like. However, I would appreciate it if you would send me a nominal fee of \$10.00 U.S. to cover the electric bill used to feed my Powermac 8100 which created these textures.

Also, if you send me ten bucks I will e-mail you more than 200 additional totally royalty free textures. Perfect for web page backgrounds and other multimedia stuff.

Thanks,

If you would like to send in a donation and GET MORE THAN 200 ADDITIONAL ROYALTY FREE BACKGROUNDS e-mailed to you, please send a check, along with your name, address and e-mail address to:

David McLaughlin
7278 S. Tamiami Trail
Sarasota, FL 34231

Thank you very much. I hope you enjoy the textures.

Sincerely,

David McLaughlin
