

GENERAL

Dinosaur Rock Math is a collection of three different math games: Math Squares, The Eliminator, and In Order. Click on their buttons to learn their rules and special instructions.

GAME SELECTION

Games are selected by using the "Game" menu or by clicking on the dinosaur "stone" for each game. The dinosaurs "stones" represent, from the top down: Math Squares, The Eliminator, and In Order. You can start a new game at any time by clicking on the "New Game" stone.

SKILL SETTINGS

There are two skill levels: Beginner and Advanced. The Beginner level covers numbers 1 through 12. The Advanced level covers 1 through 100. The skill level is selected using the "Skill" menu.

SOUND SETTINGS

Sound can be turned on or off using the "Sound" menu.

SUBJECT SETTINGS

The subject (addition, subtraction, multiplication, division) can be changed by using the "Subject" menu or by clicking on the subject "stone" of your choice.
