

To move with the numeric key pad:

- 1: Southwest
- 2: South
- 3: Southeast
- 4: West
- 5: ---- Wait ----
- 6: East
- 7: Northwest
- 8: North
- 9: Northeast

-----  
"-" key = rotate counter clockwise

"+" key = rotate clockwise  
-----

The "0" key fires a bow and arrow, wand, darts, blaster, etc. Face your opponent before firing.

To Move with the Arrow Keys:

Each arrow key represents its respective North/East/South/West movement. You can use the cmd-F key combination to fire.

To Move with the Keyboard:

On the main keyboard, use the M,<,>,J,L,U,I,O keys to move. Each key moves in the "direction" of the key with respect to the "K". In other words, the "K" is the center, similar to the "5" on the numeric keypad. You can use the cmd-F key combination to fire.

To Move with the Mouse:

Just hold down the mouse button and the character will move towards the cursor. Watch Out! You can get in trouble FAST this way! You'll be thirty steps into the molten lava before you know it! You can use the cmd-F key combination to fire.

Your Life Force

The red bar at the top of the player window shows your life force. When it reaches zero, you die. The numbers show the current life force and the maximum when you are completely healthy.
