

# MacTriv Quick Help

- To Start MacTriv, select “New Game” from the Game menu.
- Enter your names and choose a colour.
- Click the dice window to throw the dice.
- Choose a direction to move in by clicking the board in that direction. Only horizontal and vertical moves are allowed.
- Answer the question by clicking A, B or C.
- If correct, play continues. If incorrect, play passes to the next player.
- Collect all ‘wedge’ questions as you play by landing on the special squares.
- The winner is the first to collect all six wedges and answer the ‘Special Category’ question.
- Choose different files of questions at any time with ‘Open Questions’
- Change a player’s colour or name at any time by clicking (or option-clicking) the name of the player in either the wedge or info windows.
- Clicking the wedge holders opens the info window for that player.
- Create your own files of questions using the editor.
- Custom graphics and categories can be installed using ‘Customise...’ from the File menu.
