

olor boxes

- Click on a colored box to turn a color on or off. (Colors labeled "No!" will not be chosen at startup.) Hold down the option key on the keyboard and click on a colored box to pick a color for that box.

All Button

- Turn all colors on.

None Button

- Turn all colors off.

Default Button

- Set the colors to the original "factory preset" colors.

Import Button

- Import a previously saved color set.

### Export Button

- Export the color set to a file.

### Save Button

- Save the changes to the currently selected color set to be used at the next startup.

### Cancel Button

- Cancel any changes to the currently selected color set.
