A quick look at the complete version of ScriptRunner 1.0

The complete version of ScriptRunner 1.0 offers a much wider range of modul possibilities. This range of possibilities allows you greater ease with which you can fully apply your Macintosh capabilities, and solve problems in a manner that were not really possible before.

Note: ScriptRunner changes quickly, so its possible that there are many, many more moduls...-)

Just take a look at a few of the possibilities:
