1.1 Installer Guide

Installation is rather simple.

Just unpack the file MTGRULES.LHA into one directory.
Keep all files in one directory, otherwise it won't work.

To read the contents, simply doubleclick on the provided icon.
You might have to change the path to either Multiview or Amigaguide.
Do whatever you like.

UPDATE: All existing files from version 2.6 or earlier versions
will be replaced by the files in this archive. There are also
some new Guide files.

Happy reading.
