| Hmm...What kind of resultotion are you Rabbits
| using ?
| Myself i have a 724$\times$512 (Hires/overscan)
| And from now on i will make all pictures in
| a new standard *730$\times$602* this mean that more users
| can use the pictures.  I assume all Rabbits have some
| sort of oversacan, Well the thing is More users can now
| use the pictures, without that the pic is repeated
| in an ugly way, well, if you only have hires, hmmmmm.
| You will only see a part of the picture, bad....
| I selected the 730$\times$602 standard coz then booth Hieght
| and lenght is increased with the same amount, the reason
| for the 730 in the first place is that i tried
| to make it not to big for my own screen, =)
| and  724$\times$283 is the Maximum visual Size in WB in PAL hires mode...
|
| NOTE!
| I will NOT provide BG-pics in BOTH laced and nonlaced
```

```
| verions anymore, it will make the package to BIG!!!
|
| Any questions
