```
MagicWB patterns...

  This is the 'MagicRabbits Magic Pattern collection'
```

```
I seperated the patterns and the icons, in the Magicrabbit
icon collection, coz the patterns took so much room,
the were like 90 % of the package =)
And thats no good, if you want to
only have the icons have to, you... ok =)

If you want to see my beauiful icons, you can
Download the 'MagicRabbit_#.lha' (Where # represents a number)
The latest veriosn of 'MagicRabbit_#.lha' is #9
The latest version of 'RabbitPatterns_1.lha' is numbero 2

NOTE!: In some fake computer bbs's, that only
support 8 letters or less, i.e the any bbs running on a  pc "computer"
The names has been changed to protect the inocent...

Well The RabbitPatterns_#.lha shall be called "RPatter#.lha"
     The 'MagicRabbit_#.lha'  shall be named  "MRabbit#.lha

 This is the correct names to be used, PLEACE use them if
 you upload to some fucking shit bad pc hell bbs....

        (.I just love the PC.)
