Galagod

Eureka's Arcade

Game Play

You start the game with 5 Ships.   You get a new Ship after 5,000 points, and every 5,000 after that.

Each level gets progressively harder.   The Galagods drop more bombs, and their speed increases.

Your Ship will gain some speed, and increase its rate of fire as you pass through the levels.   You can also increase the number of Missles your Ship launches during a round.

Scoring

Master Galagod - 60 Points X 2 while flying
Lesser Galagod - 50 Points X 2 while flying
Middle Creature - 40 Points X 2 while flying
Bottom Creature - 30 Points X 2 while flying

If you hit a Master Galagod while it is flying, your ship will get Triple Missles for a few seconds.

If you hit a Lesser Galagod while it is flying, your ship will get Double Missles.
