## DROPCAP HEAVEN

Thank you for downloading our collection of graphic image dropcaps for Windows desktop publishing programs. These Windows metafile graphic images will make it much easier to create a large decorative initial cap in PageMaker, QuarkXpress, Ventura Publisher and other Windows programs. See your DTP software documentation for instructions on placing .WMF graphics into your documents and wrapping text around them.

This set consists of 26 separate .WMF files of the entire alphabet in upper case, Times Roman (serif) style type, reversed on a black block background. This set is freeware -- enjoy it with our compliments, no royalty or registration fee required.

### **How to get additional font sets**

For only \$9.95 (plus \$1.50 shipping and handling), we'll turn your favorite decorative font into easy-to-use graphic images like DROPCAP HEAVEN. All you have to do is send us a 3½ inch disk with the .TTF file of the Windows True Type font you want converted into drop cap graphic images. We'll return the disk to you with the 26 custom-created graphic images of your font. That's all there is to it. Page 2 of this document is a convenient order form.

### **Discounts for multiple fonts**

Order two sets (from two different fonts) for only \$17.95, three for \$21.95 or four for \$25.95. Please send a .TTF file for each font you want converted to graphic images.
