Registering brings with it a number of advantages.

o All the Unregistered Copy notice will no longer appear.

o You will receive a menual.

o Next major version is sent automatically when it becomes available.

o If you supplied an E-Mail account a notice for each version release will
  be sent to you.

o You will have FREE technical support should you have any problems.

o Your support will encourage me to continue to improve FindRGB.

o You will have the knowledge that you personally helped a fledgling
  software developer and furthered the SHAREWARE concept.

o As I see it, by using this FindRGB software you are saving yourself
  a lot of trail and error hours trying to solve problems or just
  understand what is going wrong (and on) so this small registration
  fee is really a small one to pay comparing to the benefits that
  FindRGB brings you.

Thank you and enjoy it,

Yonat Dascalu
