Papers

Wallpaper Tools V1.12
Shareware for Windows

Introduction

Papers is a series of wallpaper loading utilities that ease loading Windows wallpaper. They all facilitate keeping wallpaper in directories other than the Windows directory. There is a common dialog-style loader, and drag 'n' drop icon, and a File Manager Extension (which also includes a number of other functions, such as ejecting CD-ROMs and quick-exiting Windows). For network users, there is a paper refresher, so wallpaper can be loaded from remote, network drives.

Note: these tools require Windows 3.1, PapFresh requires Windows for Workgroups or other networking software.

Installing and Using Papers

For complete documentation, view the PAPERS.HLP help file. To do this:

✓   Load the **WinHelp** program that comes with Windows 3.1 (WINHELP.EXE) and open the PAPERS.HLP file (select File | Open from WinHelp's menu bar).

✓   Double-click on PAPERS.HLP in the File Manager.

About clySmic Software

clySmic Software is a member of the *Association of Shareware Professionals* (ASP). For full

information on what Shareware is, and the ASP Ombudsman Statement, please see the WinHelp documentation file PAPERS.HLP.
