

# Slide Show V2.1.0 for Windows

Slide show is a windows screen saver which will display your own BMP or GIF files on your screen as a slide show.

Slide Show is SHAREWARE and freely distributable. (See file SHAREWAR.TXT)

## To install the screen saver:

- 1) Unzip the zipped files into a temporary directory.
- 2) Copy **SLIDESH0.SCR** and **MNYTHDLL.DLL** into your C:\WINDOWS directory.
- 3) Open the Windows **control panel**, then open the Windows **desktop icon**.
- 4) From the list of screen savers select **Slide Show**.
- 5) Click on the **SETUP** button.
- 6) Enter the directory where your BMP and GIF files are stored.  
Enter the seconds for each one to be displayed.
- 7) If you want password protection on the screen saver, click on the **PASSWORD** button.

This screen saver requires the file VBRUN300.DLL to be in your C:\WINDOWS\SYSTEM directory. It is probably already there. If not, you can find this file on any BBS or FTP site.

## REGISTRATION

Until you register this screen saver, it will only display a maximum of **3 pictures**.

To register, please send \$10 along with your postal address, E-MAIL address, or FAX number to:

**Cary Bone**  
**1199 Laurel Ct.**  
**Carol Stream, IL**  
**USA 60188**

**My EMAIL = [cbone@xnet.com](mailto:cbone@xnet.com)**

When you register I will return to you a **REGISTRATION CODE**.  
This will allow the screen saver to display an unlimited number of pictures.

## Display your favorite family photos!

Send me your photos and I will scan them and create image files that can be displayed with this screen saver. I will send you back the photos along with a disk.

\$5 per photo - 5 photo minimum.

**Makes a great gift!**
