WAV Clock V1

WAV Clock is copyright © 1994 Harbinder Singh Ghag

WAV Clock is a Windows 3.1 clock, from which you can set an alarm to go off at a certain time. The alarm can be set to one of the following modes :-

> * beep and display a message
> * Play a WAV format music file

You can bring up a setup screen, that allows you to customise WAV Clock by clicking anywhere in the WAV Clock window. The options displayed in the setup screen are as follows :-

Find :- get the filename of the WAV file to play.

Test :- Play the WAV File.

Alarm Mode - Sets the alarm mode, to beep or to play a WAV file.

Alarm Time - Sets the alarm time.

Font - Change the display font.

WAV Player - Select a new WAV file player, the default is c:\windows\mplayer.exe.

To install WAV Clock on your harddisk just simply copy it's program files to a directory. Note that you will need the Visual Basic run time module VBRUN300.DLL in order to run this program.

Contents of the disk :

CMDIALOG.VBX	--	Visual Basic V3 file, needed to run WAV Clock
COMMDLG.DLL	--	Visual Basic V3 file, needed to run WAV Clock
ALARM.EXE	--	The WAV Clock program file
REAME.WRI	--	This file in MS Wirte format.
README.TXT	--	This file is text format.
