1. RUNNING THE SOFTWARE

If you have installed the program using **SETUP**, simply double click on the Crossword Mania! icon to run the program. If **SETUP** has not been run, then simply copy all files to a floppy disk (or a temporary directory on your hard drive), select 'Run' from the Program Manager File menu, and type the drive letter, a colon, and the word setup (e.g. '**A:SETUP**' or '**B:SETUP**'). If for some reason the setup program fails to run correctly, then a manual installation of the program is possible. First shell to DOS and make a temporary directory to put the program files in (for example, 'MD **CROSSTMP**'). Then copy all program files to this temporary directory. Run the manual installer batch file **MANUAL.BAT** followed by the letter of the drive to install the program to. The program will be installed in the **\CROSS** directory.

Example: **MANUAL C:**
