

Turbo Picture Poker v1.0

Windows Game
Copyright 1995 All rights reserved.

This computer game is based on the Video Poker games popular in most casinos. Video poker is played with standard poker rules, but is much faster and more **exciting** than typical poker because you can win many times your original bet. The players goal is to have a hand value of two Jacks or better. When you are lucky enough to make a big hand of two pair or better you will be rewarded with a customizable sound and picture.

This game is written in Delphi an advanced programming language and will play up to 10X faster than Visual Basic poker games and requires no VBRUN files. You will notice the speed difference right away.

How to Play:

1. The player makes a bet, the shareware version is limited to \$20 maximum bet.
2. 5 cards are dealt face up for the player.
3. Player must now decide which of the 5 cards to discard or hold, in this computer game you hold a card by mouse clicking on the box underneath the card.
4. The player wins with a poker hand of two Jacks or better. For high hands like two pair of better he receives a *bonus* payment which is a multiple of the amount bet. The higher the hand the more you receive.

Bonus Payouts :

Two Pair	2X
Three of a Kind	3X
Straight	4X
Flush	5X
Full House	8X
Four of a Kind	12X
Straight Flush	50X
Royal Flush	100X

When you have a hand of two pair or better you will be rewarded with a picture (.BMP File) and a sound (.WAV) file combination. This picture screen contains a configuration option which will let you select any .BMP or .WAV file which will become your new reward screen.

For the shareware version betting is limited to \$20 Maximum and the game will end if your total goes over \$150 or less than 10 after playing at least 10 hands. This

allows you to fully try the game without crippling any features or excessive nagging. The registered version comes on a full 1.44 diskette with many other great games and shareware. The registered version includes the latest version of Mr Vegas a Las Vegas travel guide which contains insider information and 800 numbers for all Las Vegas casino hotels plus show information.
