DISCOVER THE POWER OF INFORMATION

Do you know what percentage of your people's time is spent finding information? For many firms, this number is 20 to 40%, and even higher for some.

Data Discovery, Inc. (DDI) offers a wide array of information management solutions from simple "shrink wrap" programs like TrueList to custom tailored information systems. These solutions can dramatically reduce the time required to access information and provide tangible productivity increases across your organization without replacing your existing system.

Our specialty is automated information retrieval -- bringing information to the user in a timely fashion with a minimum amount of human direction.

Enhance your work flow, productivity, and profitability by reducing the time it takes to access the vital information that drives your business.

For more details, please call Data Discovery, Inc. at 1-800-808-3838.
