# FLASH CARDS FOR WINDOWS & DOS
# LICENCE AND PRICING INFORMATION

## LICENCES:

**Single user licence**:  This licence is intended for the use of an individual or an organization, and permits use of the Flash Cards system and its associated databases ("the software") by only one user at a time. Where the purchaser is an organization, it is the responsibility of the organization to restrict the use of  the software to only one employee at a time.

Ownership of single-user licences may be transferred on payment of a $20 registration fee to Startext. The original owner must delete all copies of the software and must inform Startext of the transfer. Transfer of ownership of single-user licences is necessary because only registered users may order additional databases.

**Site licence**:  This licence allows concurrent use of the software by multiple employees of an organization at one site, whether the software is installed on a network, on standalone workstations, or on employees' own computers. Site licences are available in 5, 12, and 20 concurrent user levels. Ownership of site licences is not transferable.

## WIDE-AREA NETWORK AND CORPORATE LICENCES:

To licence Flash Cards for Windows for use in multiple locations within an organization, or for Wide Area Network availability, please contact Startext for a quotation.

## PRICING:

Single user licence as shown on the order form
5-user site licence double the single-user licence prices
12-user site licence three times the single-user licence prices
20-user site licence four times the single-user licence prices

## CONTINUING UPDATE SERVICE:

For customers who have purchased a *complete* set of Flash Cards databases for Novell certification tests, an optional continuing update service is available.  All **new** databases and all system or database **upgrades** will be provided (via CompuServe or mail) as they become available. No action is required on the part of the customer.

Annual pricing of the update service is as follows:  (in $US)

| Licence type | via CompuServe | via mail |
|---|---|---|
| single user | $195 | $245 |
| 5-user site licence | $295 | $345 |
| 12-user site licence | $395 | $445 |
| 20-user site licence | $495 | $545 |

*Note: Prices are current as of June 30, 1994, and are subject to change without notice.*
