"WD6FLTRW.WRI" ReadMe file for PageMaker 5.0 for Windows

For using the Word 6 Import Filter with Word 6 for Windows installed

June 1994

Note: The archive you downloaded, which includes this ReadMe file, contains the Word 6 filter, but not certain OLE 2 files that are required for the filter to work properly. If you already have Word 6 (or some other application which uses OLE 2) installed, those OLE 2 files (see the list below) should already be installed on your computer, and the filter is all you will need.

If you do NOT have Word 6 installed on your computer, and do NOT have OLE 2 installed on your computer, then you should download the separate, larger archive that includes both the Word 6 filter and the OLE 2 files.

Here is a list of the OLE 2 files that are required for the Word 6 filter to work properly. If you are uncertain whether you need to add them or not, you can check for them in the Windows/System directory of your computer:

COMPOBJ.DLL
OLE2.DLL
OLE2.REG
OLE2CONV.DLL
OLE2DISP.DLL
OLE2NLS.DLL
OLE2PROX.DLL
STDOLE.TLB
STORAGE.DLL
TYPELIB.DLL

This new import filter lets you import files created in Microsoft Word 6 for Windows into PageMaker 5.0 for Windows.

INSTALLING THE FILTER

1. Quit PageMaker if it is running.
2. Locate the file called "WD6IMP.FLT." This file is the filter file, and was included in the same archive file that included this Readme file. It should now be in the same location on your hard drive as this ReadMe file.
3. Copy the file "WD6IMP.FLT" to the FILTERS subdirectory of the language directory (e.g., USENGLSH), which is found in the ALDUS directory.
4. Restart PageMaker.

NOTES ON USING THE FILTER

This filter lets you place Microsoft Word 6 for Windows files into your Aldus PageMaker 5.0 for Windows publications, retaining formatting and styles, with the following exceptions:

- Bullets and numbering specified by the "Bullets and Numbering..." command or "Bullets" and "Numbering" buttons in Word 6 are not imported.
- Table of Contents entries generated by the "Insert Field..." command are not imported. However, Table of Contents entries generated by applying one of the

Table of Contents styles are imported.

- Drop Caps are not imported.
- Table borders are not supported.
- Objects linked to the Word 6 file by OLE 2 are not imported.
- Graphics created using Word 6 drawing tools and commands are not imported.

USING FILTER OPTIONS

You can make the following import options available by holding down Shift as you click "OK" in the "Place" dialog box:

- Import TOC entries from outline
- Import index entry fields
- Import condensed/expanded spacing as:
 - Set width
 - Manual kerning
 - Track kerning
- Import page break before paragraph:
 - As page break before
 - As column break before
- Import tables
 - Marked tables only

USING SCRIPTS TO SET FILTER OPTIONS

If you use the PageMaker script language "import" command to import Word 6 files, you can use the following script keywords to specify preferences for import options. The default arguments are shown in bold:

TOC ([**TRUE** | FALSE])
INDEX ([**TRUE** | FALSE])
SPACING ([**SET_WIDTH** | MAN_KERN | TRACK_KERN])
PG_BRK_BEFORE ([FALSE] | **PG_BRK** | COL_BRK])
TABLES ([FALSE | TRUE | **MARKED**])

For instructions on using the PageMaker script language, see the *Aldus PageMaker Script Language Guide*.

If you do not agree with them, you must delete or destroy all copies of the Software. Your rights to use the Software terminate immediately if you violate any of the terms stated below.

RIGHTS AND RESTRICTIONS:

You MAY:

- USE the Software on a single computer.
- MAKE COPIES of the Software for your use on other computers, provided that you do not alter or edit the Software in any way.
- TRANSFER complete copies of the Software to others, provided that all

transferred copies include this ReadMe file and are not altered or edited in any way, and you do not receive any payment or other value in connection with such transferred copies.

You MAY NOT (except as otherwise specifically permitted under the European Directive on the Legal Protection of Computer Programs, related regulations, and implementing legislation, if applicable):

- REVERSE-ENGINEER, disassemble, decompile, or make any attempt to discover the source code of the Software.
- MODIFY the Software in any way whatsoever.

Disclaimer of Warranty and Limitation of Liability: THE SOFTWARE IS DISTRIBUTED TO YOU "AS IS," WITHOUT WARRANTY OF ANY KIND.
