# **DocuPower Pro**TM

**Document Management System for** 

Microsoft® Word for Windows™

# Supplemental Functions Installer

Installs File Find, Text Search & Windows System Status Utilities –

This auto-installer is designed for use with Word for Windows 2.x. WinWord 6.x users please open the included document, XTRA-WW6.DOC.

**Double Click Button To** 

# **Before You Begin**

This file is more than a simple Word for Windows document. Double clicking the button above will install supplemental  $DocuPower\ Pro^{^{TM}}$  function libraries to your copy of Word for Windows. These DLL files will provide you with the following additional utilities: File Find, Text Search, and Windows System Status.

These functions will be automatically integrated into your copy of  $DocuPower\ Pro^{TM}$ . If you haven't already installed  $DocuPower\ Pro^{TM}$ , please do so before installing these supplemental function libraries.

### Extra Features: Free!

Upon automatic installation of the supplemental function libraries, your copy of  $DocuPower\ Pro^{\text{\tiny M}}$  will be enhanced with the addition of the features described below:

#### File Find and Text Search

**File Find** and **Text Search** will allow you to reclaim your "missing files". A successful search will compile a list of files that match your specified criteria. You may then choose to either open these files in WinWord, or add them directly to any *DocuPower Pro*<sup>TM</sup> folder.

#### Windows System Status

The **Windows System Status** utility reports important information about your system — total

memory, system resources, remaining hard drive space, drivers, etc. It also provides you with convenient push-button access to edit your WIN.INI, SYSTEM.INI, AUTOEXEC.BAT, and CONFIG.SYS files.

For more information about how to use these utilities, please see MANUAL.DOC in your *DocuPower*  $Pro^{\text{TM}}$  program package.
