

What is VDT?

VDT is a toolset developed by PET Assoc. for use with the Microsoft Windows operating environment. The toolset provides enhancements and improvements to the Microsoft Windows environment. VDT is comprised of three integrated applications that provide the following features: a screen expander, a hierarchical group manager, and a graphical disk manager.

Disk Contents

The following files should be in the distribution disk:

bc30rtl.dll
bwcc.dll
owl31.dll
tclass31.dll
vdt.exe
vgm.exe
vdm.exe
vdt.wri
readme.lst

Installation

Copy all of the files to your Windows directory or to a directory of your choosing as long as it is in your path. Information on starting the environment is contained in the 'QUICK START' section of the vdt.wri file.

What is SHAREWARE?

VDT is not free software. It is released as shareware, a distribution method that allows users to evaluate software before actually paying for the software. You are permitted to evaluate VDT for a period of 30 days. At the end of that time you must either 1. pay for the software or 2. destroy all copies of the software. Almost two man years were spent in developing VDT, with your registration you will be ensuring that the product is enhanced and supported.

SOFTWARE LICENSE AGREEMENT

Non-registered users are permitted to use VDT for 30 days for the purpose of determining if VDT is suitable for their needs. The use of VDT, beyond the initial 30 day trial, requires registration. The use of unlicensed copies of VDT, beyond the evaluation period, by any person, business, corporation, government agency or any other entity is strictly prohibited.

A single user license permits a user to use VDT only on a single computer. Licensed users may use the program on different computers, but may not use the program on more than one computer at the same time.

A limited license is granted to copy and distribute VDT only for the trial use of others, subject to the above limitations, and also the following conditions:

- 1) All VDT release files must be copied in unmodified form, including the file containing the license and registration information.
- 2) No part of the VDT toolset may be bundled with any other product without a specific written permission from PET Assoc.
- 3) No fee, charge or other compensation may be accepted for the

distribution of VDT. Public Domain Disk Vendors and BBS(s) may charge a nominal fee for distribution of the program. However, the recipient of the software must be informed that the fee paid does not constitute payment for use of the software.

By using the software you agree with the above conditions. You may terminate this license at any time by destroying all copies of this program. This license will also be terminated upon failure to comply with any of the terms or conditions of this agreement.

LIMITED WARRANTY

THIS PROGRAM IS PROVIDED ON AN "AS IS" BASIS WITHOUT WARRANTY OF ANY KIND. In addition, PET Assoc. specifically disclaims all warranties, expressed or implied, including but not limited to implied warranties of merchantability and fitness. In no event shall PET Assoc. be liable for any claims for lost profits or any other commercial damage, including but not limited to special, incidental, consequential or other damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. Under no circumstance will PET Assoc.'s liability exceed the license fee paid for the right to use the software.
