

Using this software.

You need:

1. An IBM-compatible PC running Windows 3.0 or later.
2. A hard disk with 1 MB available space.
3. 4 MB RAM memory.

To install:

1. Go to your hard disk root directory
c:>
2. Make a new directory (we recommend "CSOFT")
c:> **md CSOFT** {enter}
3. Log to the new directory:
c:>**cd\CSOFT** {enter}
4. Copy all files from the distribution disk (example below assumes you have the distribution disk in Drive A).
c:\CSOFT> **copy a:*.*** {enter}
5. Run Windows 3.1 and RUN **C:\CSOFT\cslmow.exe** from the File Manager,
OR
Set up cslmow.exe as an application using the Windows Set-Up program. □
