6 About Shareware   Shareware distribution gives users a chance to try software before
6 About Shareware   buying it. If you try a Shareware program and continue using it, you
6 About Shareware   are expected to register. Individual programs differ on details --
6 About Shareware   some request registration while others require it, some specify a max-
6 About Shareware   imum trial period. With registration, you get anything from the simple
6 About Shareware   right to continue using the software to an updated program with
6 About Shareware   printed manual.
6 About Shareware
6 About Shareware   Copyright laws apply to both Shareware and commercial software, and
6 About Shareware   the copyright holder retains all rights, with a few specific excep-
6 About Shareware   tions as stated below. Shareware authors are accomplished programmers
6 About Shareware   just like commercial authors, and the programs are of comparable
6 About Shareware   quality. (In both cases, there are good programs and bad ones!) The
6 About Shareware   main difference is in the method of distribution. The author specifi-
6 About Shareware   cally grants the right to copy and distribute the software, either to
6 About Shareware   all and sundry or to a specific group. For example, some authors
6 About Shareware   require written permission before a commercial disk vendor may copy
6 About Shareware   their Shareware.
6 About Shareware   <PgDn> for more...
7 About Shareware (Cont)
7 About Shareware (Cont)   Shareware is a distribution method, not a type of software. You should
7 About Shareware (Cont)   find software that suits your needs and pocketbook, whether it's com-
7 About Shareware (Cont)   mercial or Shareware. The Shareware system makes fitting your needs
7 About Shareware (Cont)   easier, because you can try before you buy. And because the overhead
7 About Shareware (Cont)   is low, prices are low also. Shareware has the ultimate money-back
7 About Shareware (Cont)   guarantee -- if you don't use the product, you don't pay for it.
7 About Shareware (Cont)
7 About Shareware (Cont)   The shareware version of National INNdex has a 30 day trial period,
7 About Shareware (Cont)   during which you may use the program free of charge. After that
7 About Shareware (Cont)   period, you are expected to register and submit a $29.00 registration
7 About Shareware (Cont)   fee. In exchange for your registration you will receive a copy of
7 About Shareware (Cont)   the entire 5,300+ motel database (growing to 10,000, motels by October
7 About Shareware (Cont)   1, 1995). Registered users are also able to purchase updated data at
7 About Shareware (Cont)   any time for the modest price of $12.50 per update.

7 About Shareware (Cont)   TORY OFFER, select REGISTER from the main menu.
